## Chardonnay

FRANCE

Burgundy

Chablis

*The crisp and mineral side of Chardonnay, with a tart and steely character. In its youth, aromas of seaspray, oyster shells, nuts, lemon custard, and mushrooms are profound. As the wines develop with age, butter, honey, and oozing cheese aromas are intensified. Flavors of tart green apple, and lemon with razor-like texture and acidity.*

*Soil type: Kimmeridgian marl, Clay/Limestone*

### Loire Valley

*Some of the world's most mineral wines from various soils loaded with limestone and silex. The wines are flinty and highly perfumed with musky aromas of flowers, tart green apples, gooseberry, and a distinctive herbaceous quality reminiscent of fresh-cut grass. The palate delivers fresh grapefruit zest, and high-pitched citrus flavors. This is terroir at its finest. Here are a few of the most consistent producers:*

### Loire Valley

*These wines are produced in both dry and off-dry styles, and benefit from high mineral content in the tuffeau soils from which the vines grow. Tart tree fruit, lemon, chamomile, and ginger dominate the nose and palate. The more oxidative versions found in Savennières and Vouvray can give off aromas of hay, lanolin, pistachios, and bruised apples. All of the wines have crisp and piercing acidity, and can be great matches with our menu.*

### ALSACE

*Alsace is the only region in France known for its Riesling. It produces a rich and powerful style that is classically fermented dry, but many versions of off-dry and sweet Rieslings can also be found. These wines are known less for their citrus character and more for their floral aromatics and steeliness.*

## GERMANY

## MOSEL

*Wines from the Mosel are some of the most transparent wines in the world. The wines are the lightest and most mineral-driven Rieslings in all of Germany, producing wines that are incredibly compatible with food. The climate in the Mosel is marginal and grapes struggle to ripen. Steep vineyard slopes create quick drainage, so vines must penetrate the slate beneath them to access water deep below the surface.*

*Soil type: Devonian blue and red slate*

*A slightly warmer climate enables riper grapes and more tropical flavors in these wines, with more roundness and body than those in the Mosel. Burgundy

## Côte de Nuits

Soil type: Sandy-limestone, marl and clay

### Marsannay

Marsannay produces pinot that resembles neighboring appellations of Fixin and Gevrey-Chambertin with intense coloration and an attack that is powerful and generous leading into a long and meaty finish.

<u>Bin No.</u>		<u>Bottle</u>
1982	Bruno Clair, 'Longeroies' 2005	165

### Fixin

Often called "winter wines" because they need to spend some time in bottle, Fixin produces pinots that are broad and rustic, yet delicate at the same time. Their fullness is remarkable and their texture delicate.

### Gevrey-Chambertin

The historic village of Gevrey-Chambertin and its high concentration of clay soils gives the wines their power, muscle, intensity and ripeness, and creates some of the longest lived Burgundy in the world.

## Chambolle-Musigny

*Many people believe that Chambolle-Musigny produces the world's ideal expression of Pinot Noir. It has richness and finesse, yet still retains an underlying power and firmness. Higher amounts of chalk in the vineyards, and more wind, give the wines more acidity and higher aromatics.*

## SPAIN

### Rioja

*The most famous red wines of Spain come from Rioja. These wines age gracefully and can develop intriguing aromas of sweet red cherry, vanilla, cinnamon, cedar and cigar tobacco. Rioja produces medium-bodied red wines with sweet and sour red cherry flavors and gripping tannins that come from extended aging in traditional American oak barrels.*

ITALY

Piedmont

Langhe

*The Nebbiolo grape from Northern Italy's Piedmont region produces some of the longest lived wines in all of Italy. They are medium-bodied red wines with dry tannins and vibrant acidity. The sturdier versions of Barolo can be found in Serralunga d'Alba and Montforte d'Alba, while the softer, more elegant styles can be found in La Morra and the commune of Barolo itself. Look to Barbaresco for this same element of delicacy and finesse and earlier drinking versions of Nebbiolo.*

Tuscany

*The wines of Tuscany have seen a rush of development over the last few decades, and the Chiantis and Brunellos of the modern era are powerful and assertive. However, the producers below represent the old-world traditionalist methods of production that remain elegant and are true representations of the region. Sangiovese is a medium-bodied red wine that has characteristics of tart red cherry, with aromas of vanilla, leather and dried herbs.*
